Claims Rejections under 35 U.S.C. §102 and §103

All pending claims stand rejected as either allegedly anticipated by a published U.S. patent application having publication number 2003/0149450 to Mayberg (Mayberg) or allegedly rendered unpatentable over Mayberg in view of published U.S. patent application having publication number 2004/0073197 to Kim (Kim) OR published U.S. patent application having publication number 2001/0027309 to Elsberry (Elsberry) OR published U.S. patent application having publication number 2001/0037083 to Hartlaub et al. (Hartlaub).

Applicants respectfully traverse the rejections.

Specifically, Applicants tender herewith an executed Declaration of first-named inventor Keith R. Hildebrand including appended Exhibit 1 antedating the primary reference, Mayberg, which thus traverses all the proposed rejections of claims 1-74.

In view of the foregoing, it is believed that the application is now in condition for allowance and Applicant(s) respectfully request the Examiner to issue a Notice of Allowance in due course so the instant invention can pass to timely issuance as U.S. Letters Patent.
